PROFESSIONAL

INSTALLATION

ON ALL BUILDINGS, EFFECTIVE DAY OF INSTALLATION.

TRIPLE WIDE OPTIONS PRICE LIST

The diagram consists of two main vertical columns of horizontal bars. The left column contains 15 bars, and the right column contains 15 bars. The bars are colored blue and light gray. Some bars are solid, while others are divided into segments by vertical lines. The sequence of bars in each column is as follows:

- Column 1 (Left):
 - Blue bar
 - Light gray bar
 - Light gray bar
 - Light gray bar
 - Blue bar
 - Light gray bar
 - Blue bar
 - Light gray bar
 - Blue bar
 - Light gray bar
 - Blue bar
 - Light gray bar
 - Blue bar
 - Light gray bar
 - Blue bar
- Column 2 (Right):
 - Blue bar
 - Light gray bar
 - Light gray bar
 - Light gray bar
 - Blue bar
 - Light gray bar
 - Light gray bar
 - Light gray bar
 - Blue bar
 - Light gray bar
 - Blue bar
 - Light gray bar
 - Blue bar
 - Light gray bar

The bars are arranged in a way that suggests a timeline or a sequence of events, with the blue bars often appearing in pairs or groups. The light gray bars provide a background or a continuation of the sequence. The overall layout is clean and professional, with a clear distinction between the blue and light gray colors.
